Cinematography means the art of photography and camera work in film-making.

The genre of the movie was used to show the villain's inner form.

A diegetic sound was sent off as a tense music as the hero had to choose between who to save; his girlfriend or the city.

Our hero had to save the world by destroying the squid before it touches the Earth's Atmosphere.

At our school, the emphasis of science was very clear.

My analysis of the growth of the plants was very high.

We read a very informative book about Wall-E.

During our narrative time, we were given 5 minutes as some time for the characterisation needed for our narrative.

- I review a lot of movies and my favourites have thrilling plot twistes.
- When watching movies, we have <sup>an</sup> analysis at curious moments of the movie.
- The features of the movie is sometimes in the title / title pic. of the movie.
- Most of ~~the~~ dialogue in a movie is written script.
- My favourite movie genres are; horror, comedy and thriller.
- Fiction movies usually start off from narratives and books.
- A captivated audience loves a thrilling scene based on its genre.
- The setting of the movie is the most important part of its structure.

Crisis There can be a few protagonists in a movie.

Rating Crisis is the point of struggle or even the turning

Rhetorical point of someone's life.

Spoilers Most movies are rated between five and ten.

Synopsis Some times teachers ask rhetorical question when

Recommend students are of task.

Comparison There are lots of spoilers in the cinemas that shout out

Antagonist what is going to happen next in the movie.

Orientation I recommend my friends to watch the movie wall-e

In a story, if the orientation is good readers decide to read the whole story.

In the movie wall-e, the antagonist was the autopilot.

I wrote a synopsis of the movie wall-e, at school.

A question that doesn't need to be answered.

Miss G asked us a rhetorical question although some people simultaneously answered it back.

I recommend that all parents let their children watch (M) Movies.

We all showed expressive skills in our maths as everyone used different strategies.

Because I already watched Wall-E, I didn't want to give out any spoilers to everyone who didn't watch it before.

The rating I'd give for the movie Wall-E is 5/5 stars.

'Greedy' would be an adjective if used with the word, 'Animals'.

Ahmad is normally a persuasive person but yesterday I saw him giving up on his project but I saw Josh coming to help him.

The synopsis was pretty interesting but confusing but I know

1. In the film we are reviewing, WALL-E is a protagonist.
2. WALL-E is an animation created by Pixar in 2008.
3. In WALL-E the Earth is in a crisis because it is covered in rubbish.
4. We are using a climatic dinosaur called the 'plotasaurus' to review the movie.
5. We will also be rating the movie as to reviewing it.
6. Most of the rhetorical questions are very expressive.
7. The synopsis of WALL-E is based on sustainability.
